Subject: Please bring back Uber

Hello,

Uber is a great option for people who enjoy a drink or two and don't want to drive. There is no way I would EVER call a Columbia cab. Would you? Honestly, would you? My daughter is a freshman at USC, and one of the first pieces of advice to her was to NEVER get in a Columbia cab. Uber drivers are top notch. They call you when they are at your location, and drive nice, CLEAN vehicles. There is no cash being passed around. What's not to love? Please reconsider this. Taxicab people may "think" they are losing business because of Uber, but they are losing business because they are terrible.

Thank you,

Martha Haynes
Columbia, SC

Subject: Recent Uber decision

To whom it may concern,

My name is Josh McCain and I have been a resident and physician in South Carolina for almost 9 years. I have used Uber many times over the past two years in Columbia and Charleston. Their convenience and service cannot be matched by any of the cab companies in this state. I have also used Uber in other cities in different states, specifically in Charlotte, Atlanta, and Chicago. I have always been very pleased. I don't know of anyone who has had a bad experience with them. Thus, I am extremely disappointed in this recent decision to give them a cease and desist order.

From a consumer's perspective, this makes no sense whatsoever and reeks of impropriety. I will be contacting my state representatives in the congress and senate, and I will voicing my disdain for this decision to the Governor's office.

South Carolinians deserve a fair marketplace which rewards innovation and great customer service. This decision hurts South Carolina consumers.

Sincerely

Joshua W. McCain, M.D.
Columbia, SC

Subject: Uber

Dear SCPSC,

I am extremely disappointed to learn that Uber has been ordered to stop its service. I have lived in Charleston, SC for several years and just recently started using Uber. Before that, I relied on taxis for transportation around the city. I have never felt as safe in a traditional taxi as I do with Uber. Not only do I spend significantly less time waiting for a ride on the by myself (often at night), but also I am able to see information about the driver and vehicle that is coming to get me. I am extremely concerned about how I will get places alone at night now. I do not feel safe using other methods of transportation. Please reconsider your decision to interrupt Uber ridesharing.

Thank you,
Sydney Ramsey
